

# WILLIAMS MULLEN

## WIND ENERGY

### Wind energy continues to grow with the advancement of onshore and offshore wind generating facilities in the United States.

Our Wind Energy team advises clients on all aspects of wind energy project development and operations, including real estate, land use, finance, tax, environmental permitting, energy (regulation, interconnection and power sales), construction and corporate law. We represent developers, investors, lenders, owners, manufacturers, operators and offshore wind supply chain companies and contractors, with particular focus on onshore and offshore wind energy projects in Virginia and North Carolina.

Williams Mullen offers a full service team of attorneys and other professionals who advise clients on the myriad of legal and other issues involved in the development, construction and operation of wind energy projects. Our core team of energy attorneys work with several of our firm's complementary practice areas, including environmental, corporate, real estate, tax, government relations, construction, and finance, to provide clients with comprehensive legal solutions.

We counsel wind energy clients through all stages of project development and operations, including:

- > Project Siting & Land Use
- > Environmental Permitting
- > Certificates of Public Convenience and Necessity (CPCN)
- > Permit By Rule (PBR)
- > Interconnection Arrangements (including PJM issues)
- > Power Purchase Agreements
- > EPC and Construction Agreements
- > Project Finance
- > Tax Planning
- > Energy and Environmental Regulations
- > Renewable Energy Credits
- > Project Acquisition and Divestiture

# About Williams Mullen

OUR TEAM

Williams Mullen is a full-service law firm with more than 250+ attorneys in offices across **Virginia, North Carolina and South Carolina**. Since our firm began in 1909, our goal has been to provide business and legal solutions to help our clients' businesses thrive.
